

## *Dear Visitor,*

We would like to draw your attention to the fact that *the visitable area of the Lake Cave covers a 250-metre long corridor, a 70-metre long section is dry and the remaining 180 metres are floated by water. The latter can only be visited by taking a boat (the conditions of the cave allow us the use of 6 boats altogether). According to our experience, up to 80 people can visit the cave within an hour.* Thank you for your kind understanding and have a nice time!

*Directorate of the Balaton National Park*
